Jia Wen Chin.

FULL-STACK DEVELOPER

Full-stack developer with 3+ years of industry experience, combining technical development with product thinking across websites, computer applications, and mobile apps. I build complete platforms from Laravel back ends and REST APIs to Flutter mobile apps and focused business tools.

EXPERIENCE

Analyst Programmer

Dec 2022 - Now

E-Genting Sdn Bhd - Kuala Lumpur

- Develop and maintain third-party web applications integrated with the main enterprise system.
- Build tools for business users to manage member data, points, and redemptions.

Software Engineer Intern

May 2022 - Oct 2022

Integro Technologies Sdn Bhd

- Gained hands-on software development experience on real-world projects.
- Contributed to delivery under the guidance of senior developers.

Part-Time Piano Teacher

Dec 2017 - Now

Tick-Tock Beats Music & Movement

- Teaching piano alongside my software career, building patience, structure, and the ability to explain complex ideas clearly.
